

Typically, KYSITE holds four meetings each year as well as Executive Board meetings to discuss business associated with KYSITE, District and ITE international activities along with committee reports. A golf outing has become the Section's annual social function and our Annual Meeting in November provides a setting to install officers and directors.

Upcoming Events...

*Engineering Day..... February 23rd
Location: University of Kentucky*

*Spring KYSITE Meeting..... February 26th
Topic: Road Diets
Location: Frankfort, KY*

*Summer KYSITE Meeting June
Golf Outing

What does KYSITE provide?

Kentucky -- Meet traffic engineering and transportation planning professionals from all over the Commonwealth.

Yearlong Networking -- Network with fellow Transportation engineers and planners that have similar issues that you deal with every day.

Serve -- Serve in a role as an officer in a highly respected, professional organization where we can make a difference in our Transportation community and our state as a whole.

Interact -- Interact with consultants, state, county, and city government people in a more relaxed atmosphere.

Traffic Bowl -- Watch students from Kentucky universities compete for Scholarship money.

Education -- gain valuable skills in the Transportation field through webinars, technical conferences, and business meetings.

www.kysite.com

What does SDITE provide?

See -- See a new, exciting Southern city every year by attending a SDITE conference.

Depth -- The depth of knowledge within SDITE is second to none.

Interact -- Interact and network with professionals from nine states to learn about what works (and what doesn't) for them.

Traffic Bowl -- Watch some of the brightest emerging professionals in the country compete against each others in a Jeopardy-style competition.

Education -- You can never have enough education. Learn about unique transportation challenges and what was done to address them.

***Kentucky will be hosting the
SDITE Annual Meeting in 2013!***

What does ITE provide?

ITE Journal -- This publication is a highly-acclaimed publication chocked full of articles about issues that we Transportation professionals face every day.

Technical -- Highly informative technical sessions, publication, and education opportunities on global issues.

Expertise -- With members in 92 countries, there isn't a transportation issue that hasn't been encountered and not solved.
